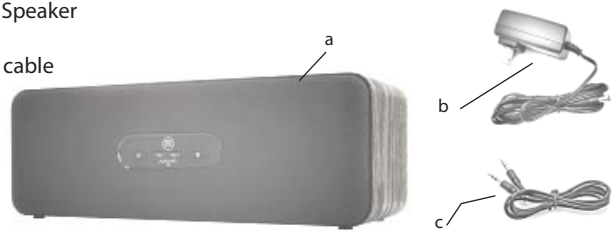
Thank you for purchasing the

GOgroove™ BlueSync™ MC Dynamic Bluetooth® Stereo Speaker

Say "Goodbye!" to wires with this high-fidelity speaker that allows you to move freely with your Bluetooth enabled device up to 30 feet! The GOgroove BlueSync MC also supports non-Bluetooth audio devices with the included 3.5mm cable and AUX line-in port. The BlueSync MC's stylish, modern design and full-range sound complements and equips any room with stunning Bluetooth audio.

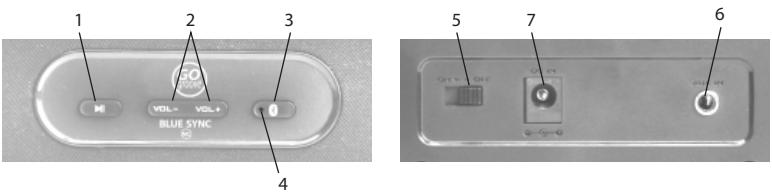
What's in the Box

a- BlueSync MC Speaker
b- AC plug
c- 3.5mm audio cable



Product Diagram

1- Play/Pause button
2- Volume +/- buttons
3- Bluetooth pairing button
4- Power LED indicator
5- On/Off switch
6- AUX line-in port
7- DC in port



Operating Instructions

Connect the *BlueSync MC* to Power:

Connect the *(b) AC plug* into a wall outlet and plug the small end into the *(7) DC in port*. Find the *(5) On/Off switch* on the rear of the speaker and switch it to the **ON** position. The *(4) Power LED indicator* will illuminate to indicate power flow.

Pairing your mobile Bluetooth device to the BlueSync MC:

Pairing instructions may differ depending on the device you are using. Please refer to your device's user manual for further information.

1- Pairing

a. Make sure that your mobile device is within at least 3 feet of the receiver when trying to pair and that the **BlueSync MC** is powered on.

b. Enter pairing mode on the **BlueSync MC** by pressing and holding the *(3) Bluetooth pairing button* for 3 seconds until the *(4) Power LED indicator* flashes rapidly and you hear 2 short tones.

c. Access the Bluetooth settings in your mobile device and select SEARCH/SCAN FOR DEVICES. Your mobile device will begin to search for a Bluetooth Signal.

d. You will see the name "**BlueSync MC**"appear in the device list. Select it to pair, and if a password or PIN is needed enter the numbers "0000".
******You may have to then select* BlueSync MC *and press "CONNECT".***

e. After a successful connection has been made, you will hear a short tone and the *(4) Power LED indicator* will flash every 3 seconds.

2- Toggling between paired devices

a. Toggling allows you to switch between devices that have been paired with the **BlueSync MC**.

b. To switch devices, press the *(3) Bluetooth pairing button* once. Allow 3 seconds after pressing the *(3) Bluetooth pairing button*. Press up to 8 times to toggle through the paired memory. If your device does not connect after toggling, please refer to the pairing instructions.

c. After a successful connection has been made you will hear a short tone.

Operating Instructions continued

3- Reconnecting

a. The **BlueSync MC** remembers up to 8 paired devices. When reconnecting you will not have to go through the initial pairing set up.

b. To reconnect, make sure that your mobile device is within at least 3 feet of the receiver and press the *(3) Bluetooth pairing button* to toggle through the remembered devices. Allow 3 seconds after pressing the *(3) Bluetooth pairing button* each time.

c. If your device does not automatically reconnect by toggling, access the Bluetooth settings in your mobile device and select "**BlueSync MC**".

d. After a successful connection has been made, you will hear a short tone. If your device does not connect after toggling, please refer to the "Pairing your mobile Bluetooth device to the **BlueSync MC**" instructions above.

Playing music:

1- Make sure that your Bluetooth A2DP (audio/music) mobile device is paired with the **BlueSync MC**.

2- Simply begin playing music on your mobile device and you should hear the music play through the **BlueSync MC**. If the music is low, increase the volume on the **BlueSync MC** first, then adjust your device's volume.

3- You can control the volume and playback directly from the **BlueSync MC** using the *(1) Play/Pause button* and *(2) Volume +/- button*.

4- If you would like to connect a device which does not have Bluetooth capability, you may use the *(6) AUX line-in port* on the **BlueSync MC**. Just use the included *(C) 3.5mm audio cable*. Connect one end to the headphone jack of your music playing device, and the other end into the *(6) AUX line-in port* on the rear of the **BlueSync MC**. Once connected, begin playing music on your mobile device and you should hear the music play through the **BlueSync MC**.

Pause/Resume

1- Short press on the *(1) Play/Pause button* to pause the **BlueSync MC**.
2- Long press on the *(1) Play/Pause button* to resume the **BlueSync MC**.

Troubleshooting

Why can't I get the BlueSync MC to pair with my mobile device?

a. Please make sure the **BlueSync MC** is in PAIRING MODE and that the *(4) Power LED indicator* is flashing. If not, please turn off the **BlueSync MC** and start from the beginning of "Pairing your mobile Bluetooth device to the **BlueSync MC"** instructions above.
b. Please make sure the (*c) 3.5mm audio cable* is disconnected from the *(6) AUX line-in port*. Once disconnected, start from the beginning of "Pairing your mobile Bluetooth device to the **BlueSync MC**" instructions above.

Why can't I play music via Bluetooth using my mobile device?

a. Please make sure that your Bluetooth mobile device supports A2DP (audio/music) connection.
b. Please make sure your device is paired to the **BlueSync MC**. To switch to another Bluetooth audio device refer to the "Toggling between paired devices" instructions above.

Why can't I hear any sound?

a. Please make sure that the *(5) On/Off switch* is in the **ON** position and that the *(4) Power LED indicator* is illuminated.
b. Please make sure that the volume on your mobile device and the **BlueSync MC** are loud enough.
c. Please make sure that your mobile Bluetooth device is within 30 feet of the **BlueSync MC**. The maximum Bluetooth range may vary in different environments and on the paired device.

Cautions

- Please only use this product in the manner described in this manual
- Please keep out of the reach of children
- Do not expose the unit to dust, water, or extreme temperatures
- Do not attempt to disassemble the product
